Address: No5-1-1703, longting building, chengxiang east road, nankai district, tianjin, China

COMPANY PROFILE

Hebei Huike Steel Pipe Co., Ltd. was jointly established by Hebei Shenghuan Group Seamless Steel Pipe Co., Ltd. and Hong Kong Huike Group. It covers a land area of 135,000 square meters with a total asset of 250 million Yuan. The company has advanced technologies and equipments and a strong technical force, and its production and inspection equipments are most up-to-date in the domestic steel pipe industry.

The main production equipments of our company include: a $\Phi 180$ automatic pipe rolling line, 3 sets of hot rolling-piercing mills, 16 interactive double-rod cold-drawing machines and a number of automatic rotary pointer, straightening machines, water-free annealing furnaces and auxiliary production equipments for surface acid pickling and coating etc. Its physical and chemical labs can conduct various physical and chemical tests and experiments for steel pipes, and are equipped with eddy current flaw detectors, leakage fault detection and ultrasonic crack detectors etc. for high, medium and low pressure seamless steel pipes and petroleum casing pipes with a full range of inspection measures, capable to meet various standard test and inspection requirements for steel pipes.

Its main products include S series: seamless steel pipes for use in low and medium pressure boilers, petroleum casing pipes, ships, fluid conveyance, petroleum cracking, chemical fertilizer equipments, structures, and hollow pumping rods. It can produce seamless steel pipes according to the standards such as GB, ASTM, API 5L, API 5CT, DIN, and JIS. Its products have been sold around China and exported to over dozens of countries and regions in the world such as Southeast Asia, the Middle East, Europe and America etc., enjoying the very high prestige in the domestic and foreign markets.

Our company also has elbow, tee and reducer production lines and advanced processes for cold forming, hot extrusion, machine processing, forging, stamping and heat treatment etc. It can produce various low-pressure, medium-pressure and high-pressure industrial pipe fittings that are made of carbon steel, alloy steel and stainless steel such as elbows, flanges, tees, pipe caps, large-size elbows, reducers and socket joints etc. It boasts a full range of inspection equipments and test methods and a strong technical force.

For many years, our company has always insisted on the operation concept of "quality first and continuous improvement", and has provided a large amount of high-quality products to its customers at home and abroad in the industries such as electric power, chemical, petrochemical, pharmaceutical, boiler, heating and shipbuilding etc. In addition, we can develop new products according to customers' requirements.

Our company always insists on survival by quality and has constantly made innovation in management and technology, and we have established a sound scientific management and quality assurance system.

We are firmly convinced that we will have a more promising future!

QUALITY POLICY

SUPERIOR APPARATUS

PRODUCT DISPLAY

PRODUCT DISPLAY

SEAMLESS PIPE Product Range from 1/2"-48"

- GB8162 structure tubes
- Gb8163 liquid tubes
- Gb3087 low-middle pressure boiler tubes
- GB 5310 high pressure boiler tubes
- Gb6479 special fertilizer tubes

The equipments of HUIKE STEEL PIPE CO.,LTD were all imported from Germany,we are able to produce various kinds and sizes of hot-rolled and cold-drawn seamless steel tubes & pipes with O.D from 1/2" -12" . The hot expansion line can produce the pipes with O.D from 14" -48" .The pipes have secured such important international certificates as API 5L,API 5CT,BV ,CE-PED,and NIOEC(NATIONAL IRANIAN OIL ENGINEERING & CONSTRUCTION CO.),certificate of special equipment production.the grade we able to supply including 10#, 20#, 45#, Q345B, A106/A53 GR.A/B/C , API 5L GR.B , X42, X52,X60, A179, A192 , ST35.8, ST37, ST44, ST52, J55, K55, N80 etc.

PRODUCTION RANGES

SEAMLESS PIPE MATERIAL & STANDARDS

Product	Standard	Rank
Steel Pipe	API 5L	B up to x60
	API 5CT	-
	ASTM A 671	All grades and classes
	ASTM A 53	A , B , C
	ASTM A 106	A , B , C

For corrosive applications can also be coated with Epoxy resins,Polyethylene etc.

MATERIALS

PROJECT MANAGEMENT

We try to bring the project planning as close as possible to the mill load planning. We maximize direct deliveries from the mills thus avoiding unnecessary storage and handling costs.For urgent and unplanned material need,we can rely on our stockist partners.In this way,construction companies are ensured of an on-time supply without having to bear inventory expenses and avoiding surplus materials. Every project will be assigned to a project manager,who will follow the project's material requirements and the order from the beginning until the conclusion.

MATERIAL PLANNING

The project manager will generate a material acquisition plan.

ORDER EXECUTION

We monitor production schedules,expedite vendors,conduct inspection,review documentation and manage logistic requirement.

LOGISTICS

Pipes are delivered on time and defect free where the customer needs them.The project manager will coordinate the activity till pipes reach final destination.

ORDER MANAGEMENT
