PT. MITRA GALPERTI

PT. Mitra Galperti Was established in Jakarta – April 1995 with the company's name is PT Mitra Project Fitting & Pipe Utama and started as sales office of the Project Fitting & Pipe (PFP) Group located in Perth Australia. The PFP Group companies has sales office Throughout ASEAN countries with the major office in Indonesia, Malaysia, Singapore, Thailand dan Taiwan.

As a part of large, recognized and forward looking flange & valve manufacture from Italy named OFFICINE NICOLA GALPERTI & FIGLIO, SpA. PFP Group which half of its share owned by OFFICINE NICOLA GALPERTI & FIGLIO, SpA, gained the leading position in the area market, and OFFICINE NICOLA GALPERTI & FIGLIO, SpA to be main principal of their business.

In September 2006, OFFICINE NICOLA GALPERTI & FIGLIO, SpA bought the share of PT. Mitra PFP utama from PFP group. Since then the company name change of PT. Mitra PFP Utama from PFP Group. Since the company name changed from PT. Mitra PFP utama to be PT. MITRA GALPERTI. As a result of this acquisition, PT. Mitra Galperti has a bigger access to be Pipe & Fittings Trader with fully support from the principal and has emerged as the area foremost stockiest.

Recently, PT. Mitra Galperti is a trading and stockiest of completed range of Piping & Pressure Vessel components including Pipe, Fitting, Flanges, Compact flanges, clamp connectors & valves. Our major client are Oil & Gas Project Companies, Oil & Gas Project Constructors, Fertilizer Plant, Vessel Fabricator & other related area suitable with our product supplied.

PT. Mitra Galperti has main representative office in Pekanbaru, Balikpapan and warehouse in JABABEKA Cikarang. With solid track record as reliable supplier and stockiest for more than 10 years, we together with our new share holder committed to bring much better service to all of our clients. Now PT. Mitra Galperti inventory in Jababeka Cikarang has several tons of Flanges and mainly are CS Flange which project requirement and stock material. In the near future, PT. Mitra Galperti plan to do manufacturing process of flanges in Indonesia with fully support from the principal in order to get the local content product.
